

About Work Exchange Program

Work Exchange Program is to help participants who cannot afford to pay full fee of workshop. It is only suitable for people who have no work at the time, who have more time than money, and who would enjoy to do various odd work at our house and garden. For those of you who want to earn money with work, the work-exchange is not recommended.

The Work-Exchange Program works according to the following principle:

One hour of work = One hour of dance workshop

One hour of work = One night of lodging/utility during workshop

Lodging cost during working period will be covered by us.

When do I work?

Working normally happens on the days before and after the dance workshop. It depends on the year and our schedule. We will discuss the schedule when you ask about doing work-exchange. You will work 6 hours/day (plus extra hours if you want to work for lodging cost of the days when there is no dance class). We discuss with each person how many days you want to work. Normally, minimum days is 3 days.

There are 2 days holiday in between first half of workshop and second half of workshop. You can work one of these days, if we both agree (it depends also on our schedule)

Does the work credit get deducted from the Workshop Fee from the beginning?

Only the amount you will work before the workshop starts will be deducted from the beginning. For work that you might do after workshop period, we ask you to pay as deposit. We will then pay you back after you work.

How would I get paid back for the work exchange?

We will pay you in cash at the end.

Do I pay for Meals during working period?

Yes, but you can make low cost meals -- we try to cover with 5 euro per day.

What kind of work would I do?

It can be many different things. Work in the garden, work on the house, babysitting -- basically, anything that needs to be done. Some work is easy, some work can be

dirty, some work takes strength, some work needs patience, some work needs some skill.

How many people can do Work Exchange Program?

It is different each year. It depends on what we can afford, as well as how many people want to do how many days of work-exchange. We usually give priority to people who take 2 weeks of workshop.

How do I apply for Work-Exchange?

Simply fill out the Work-Exchange Application Form, and email it to workshop@moeno.com (Please write "Normandy Workshop" in the subject line, so the message will not be handled as SPAM)

Do I make deposit for the workshop to reserve my place?

We will figure out how many days you are doing work-exchange, and the remaining amount will be the payment you will make to reserve your place in the workshop.
